

RENOLIT ALKORPLAN2000/3000

Reinforced Membrane for swimming pool liners

Make your
swimming
pool
fashionable

The most used, reinforced swimming pool membrane in the world

The system with fewest problems and most advantages on the market.

Due to its outstanding aesthetic appeal; easy and economic method of installation; and its 10 years watertight guarantee, **RENOLIT ALKORPLAN** is currently installed worldwide—thus making it the most popular and most used pool-lining system.

No more cracks or leaks!

We are so confident in our product that we issue a printed guarantee.

RENOLIT ALKORPLAN2000/3000 a high quality range of reinforced swimming pool membranes, protected by a layer of a unique and innovative lacquer, whose formulation has made the RENOLIT membrane the highest quality available on the market due to its strength, beauty and the RENOLIT guarantee.

What is a reinforced membrane?

It is a laminate of two sheets of Plasticised PVC, whose flexibility and strength produces a durable, aesthetically-attractive membrane that is 100% watertight.

The PVC sheets are interleaved with a polyester mesh which reinforces the membrane, giving it high tear strength and resistance to puncturing.

Beauty, Strength and Flexibility.

RENOLIT ALKORPLAN is available in beautiful colors and designs that customize each pool and make them unique.

Despite its extraordinary strength and durability **RENOLIT ALKORPLAN** is a very flexible material, being the ideal pool liner for those with irregular or complex shapes.

Quick installation

- Swimming pools of 10 x 5m renovated in 4 days
- Swimming pools of 15 x 12,5m renovated in 1 week

Ideal for renovating swimming pools... on top of any existing materials

It can be installed quickly on any clean surface without much work, so it is ideal for renovating existing swimming pools with any type of surface.

Low maintenance.... very easy to clean

- No more raised tiles
- No more darkened joints
- No more chipped paint

No more cracks or water leakages

Membrane overlaps are sealed with hot-air and pressure creating a homogenous weld which forms a watertight seam.

Please be sure that your reinforced membrane is **RENOLIT ALKORPLAN**, the trademark on the back assures that it is

What makes **RENOLIT ALKORPLAN** different...the secret is in the lacquer

RENOLIT ALKORPLAN is the only brand that applies a protective lacquer to its membranes thus reducing degradation from scratches, stains, bacteria and ultra-violet rays, and preventing premature aging.

! Not all reinforced membranes are produced the same way!

RENOLIT ALKORPLAN is manufactured using the finest virgin raw materials which insure strength and durability. **RENOLIT ALKORPLAN** uses the same raw materials and formulation for both ALKORPLAN1000/2000/3000.
