

The World's Finest Swimspas

Portfolio

Catalina Spas™
The World's Finest Swimspas

Firstly - Thank you for your interest in Catalina.

For over 17 years we have been the leader in providing the very finest hot tubs and swimspas in the UK. With a wealth of experience and expertise we have the finest selection of high quality swimspas and fitness pools waiting for you.

Catalina have perfected the art of combining the healing power of warm water, massage therapy and exercise which means that Catalina offers you some of the most advanced and beneficial swimspas and fitness pools on the market.

What are you waiting for?

Discover the benefits today! Catalina swimspas use the latest technology with tried and tested components. The river jet system enables you to swim against a powerful current, perfect for exercising without putting strain on your joints and muscles. Other features include beautiful LED lighting; Pro-Swim, stand up massage stations and comfortable seating.

Why Catalina Swimspas?

A Catalina swimspa is not only hand built, each and every one is finished to the highest possible standard making it one of the most beautiful swimspas in the world. Incorporating contemporary designs with comfort, our swimspas are produced using only the finest materials and components. As a finishing touch they are enclosed in a hand crafted synthetic wood effect cabinet. The flexibility and enhanced build quality provides the ultimate in comfort and performance ensuring each and every member of the family benefits from a swimspa. Our swimspas are built to last a lifetime which is why each Catalina is sold with a 10 year warranty.

Everyday more and more people are realising the benefit of owning a Catalina Swimspa.

The World's Finest Swimspas . . .

Catalina Swimspas – The original Manufacturer

Recognised as one of the leading swimspa manufacturers, nothing quite beats the experience of a Catalina swimspa. We pride ourselves on the handcrafted quality and finish that goes into making every one of our beautiful swimspas and pools. The structural integrity and high level of insulation make our swimspas not only built to last but cost less to run. We are so confident in our workmanship that each swimspa comes backed up by our industry leading 10 year warranty, so you can be safe in the knowledge that your new swimspa will provide years of trouble free use.

Don't just buy a swimspa, invest in a Catalina swimspa.

Catalina Swimspas – a way of life

From our Mardi Gras to the ultimate experience of the Olympic or any one of our new exercise pools, you could soon be changing your lifestyle for good. Our swimspas and pools with their river jets and features allow you to swim against a powerful adjustable current, perfect for making your workout personal to your own abilities. From the beginner to the most powerful swimmer we have a model and performance to suit. Once you have finished your workout take time to relax without the need to change environment. By investing in a swimspa you will be providing a means for healthy exercise and relaxation which will improve you and your family's sense of wellbeing.

A Catalina Swimspa for your health

Enjoy all the health benefits without having to venture out of your own garden. Your swimspa has both health and therapy benefits. Vertical water exercises come highly recommended by doctors. The healing power of water is not limited to an age group or the physical condition of a person. This means every member of the family can enjoy the benefits. Use your swimspa to:

- Increase mobility
- Ease stiff joints
- Reduce stress
- As part of a weight management programme
- A pain relief method

Your swimspa will offer you diversity, it is much less expensive to install than a traditional swimming pool plus it has many additional benefits that a swimming pool can't offer. Enjoy the healing power of water today! This is the ultimate investment for your health and lifestyle.

If you are planning on moving home you won't lose out on the investment you have made, unlike a traditional pool your Swimspa can go with you!

... Why Settle For Less?

Mardi Gras

The original space saving and affordable swimspa and party pool featuring the Pro-Swim system and seating for 11. At only 1090mm deep it makes it easier to install and has lower running costs.

- Chemical Starter Kit
- Water Capacity 6500 ltrs

Model shown: Freestyle 14 Aquadynamic in Silver Marble with 8 Crystal fountains and optional Music System

▲ We can manufacture to clients specification. No water line tiles were preferred for this indoor installation.

Endurance:

Swimming competitions are the best way to test and improve your endurance. The longer you swim, the more your body tolerates hard workouts

Sprint

The Sprint is the longer version of the Medley and is available in 3 different performance power settings.

It offers a good length swim lane and seating for 5.

All models feature Catalina Exercise Equipment for the ultimate workout.

▲ Another Catalina installation partly installed into decking. Giving improved access and offers an attractive garden setting.

Model shown:
Sprint in Cameo

- Chemical Starter Kit
- Water Capacity - 6800 ltrs

* 3 x Deluxe Safety/Insulation Covers for the Relay in-ground.

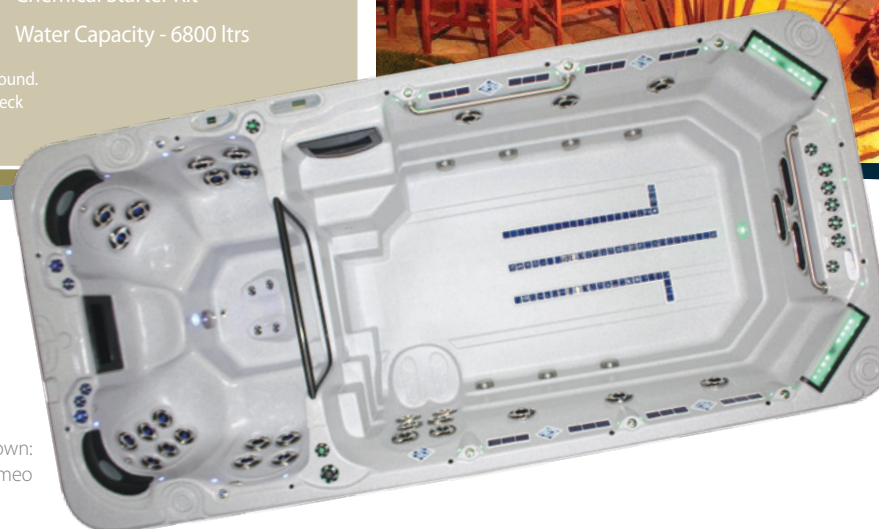

* For information on the number of covers on the Sundeck model please contact us.

In-Ground

5440 x 2280 x 1300mm. Available as an in-ground model with a higher service door. See page 17 for more information.

Sundeck

5790 x 2280 x 1300mm. Available with built in sunlounger and cooling misters. See page 17 for more information.

Model shown:
Relay in Cameo

▲ This award winning image shows the LED perimeter lights and fountains at night. Although above ground, the raised decking creates a stunning installation.

Fitness:

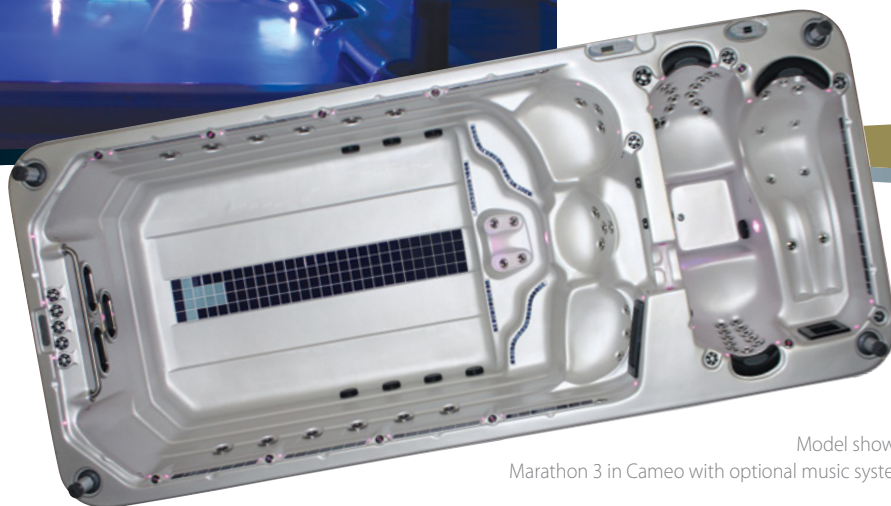

Swimming burns approximately 450 to 950 calories per hour; it all depends on your pace.

Marathon 3

The Marathon 3 dual temp swimspa features separate 3 person spa with lounger and 3.8M swim lane, with 5 powerful pumps that provides plenty of flow for a strong sustained swim. Exercise Equipment is fitted as standard giving an additional range of workout and exercise regimes.

▲ Clever surround lighting creates a very relaxing indoor environment with this Catalina dual temperature swimspa.

Model shown:
Marathon 3 in Cameo with optional music system

Marathon 3 *Dual Temperature*

2 x 2.5hp (1.9kW) 2 Speed Pumps
3 x 3hp (2.2kW) Boost Pumps
2 x 3kW Heaters
3 Swim Jets
Auxiliary Control Panel
From 70 Amp Supply

Standard Specification

- 5440 x 2280 x 1370mm
- Seats 6
- 2 x Ozone
- 1 x 100sq ft Filtration
- 1 x 50sq ft Filtration
- 60 Hydrotherapy Jets

▲
Good garden design and perfect positioning creates the perfect garden oasis.

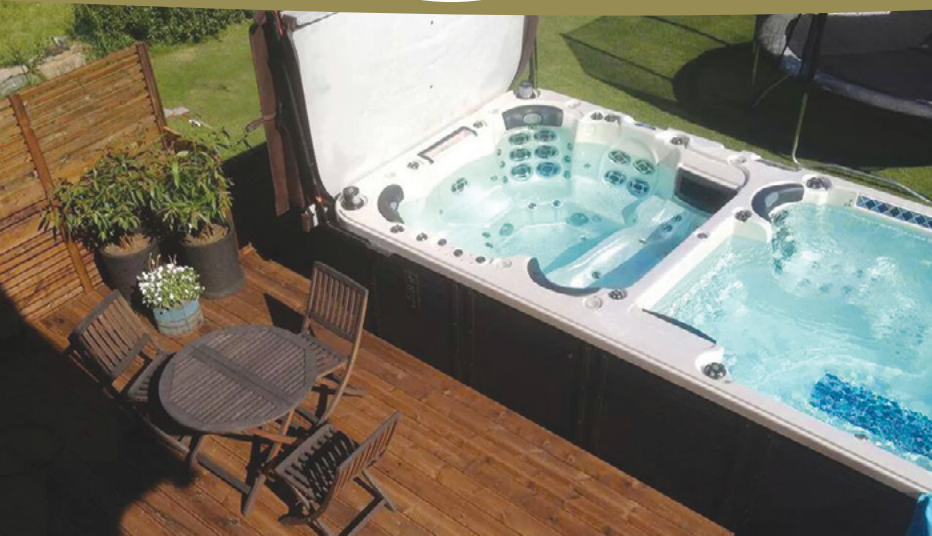

Model shown:
Marathon 5 in Cameo with optional music system

Osteoarthritis:

If your joints hurt and your muscles are stiff, swimming is perfect to ease the pain; in a pool your body weight decreases, and reduces the pressure on your muscles and joints

Olympic

The Olympic is the ultimate dual temperature swimspa. Nothing compares to this wonderful home aqua exercise pool and spa combination. We took our most popular spa model and added it to our best-selling swimspa and the Olympic was born. Fitted as standard with an un-equalled list of stunning features, the Olympic is arguably the best swimspa available.

▲ The ultimate dual temperature swimspa, the Olympic set in raised decking makes an attractive installation with easy access.

Model shown:
Olympic in Cameo with optional music system.

Olympic *Dual Temperature*

▲
A Catalina swimspa makes a perfect place to relax, enjoy and de-stress after a long demanding day.

Improves asthma symptoms:

Swimming helps asthma sufferers avoid attacks. It helps with breathing methods and improves general condition.

Amazon

The Amazon is the longer version of the Orinoco and again is a fitness pool available with 3 different performance power settings. In addition you can order as above ground, in-ground or our sundeck version with lounge and cool mist system. Featuring stand up massage station and Pro-Swim as standard this fitness pool is ideal for the serious swimmer and great for summer pool parties.

▲ Perimeter and underwater lighting makes for perfect night time swimming and creates a soothing ambiance or great party scene.

LED Crystal Fountain

LED Pop-Up Speaker

Options

Swimspa and Exercise Pool Options

We can add any number of options to make your choice your own. (Please check model specifications as some models include these options)

For night time effects

- LED Cabinet lights
- LED Topside Controls
- LED Waterfalls
- LED Jets
- LED Cascading Waterfall
- LED Crystal fountains

For that extra workout

- Pro-Swim System
- Exercise Equipment

Music System

- Bluetooth Music system with 4 pop up LED speakers and subwoofer

Special Upgrades

All of the swimspas and exercise pools are pre-plumbed ready for an energy saving heat pump to be fitted. Furthermore as we manufacture all our units we can modify and adapt for light commercial applications such as holiday rental properties or therapy centres.

- 4kW Heat Pump
- 8kW Heat Pump
- Gas Heater
- LPHW Heat Exchanger
- Light commercial Filtration
- Wi-Fi Remote control App

Heat Pumps to Reduce Running Cost

Heat pumps are cost effective and save up to 70% in heating energy. They utilise heat from the surrounding air and via a mechanical process heat the swimspa.

All Catalina swimspas are manufactured pre plumbed for heat pump installation.

Pro-Swim

A swimming and coaching aid fitted as standard to several models. It is a unique feature (or option) to aid all swimming abilities from the learner swimmer to the serious aquatic athlete. Pro- Swim allows the swimmer to maintain a high body position while working against resistance at maximum effort. The Pro-Swim forces efficiency while increasing strength and confidence. It allows swimming for sustained long periods without the need to keep turning.

LED Cascading Waterfall

Build Options

In-Ground

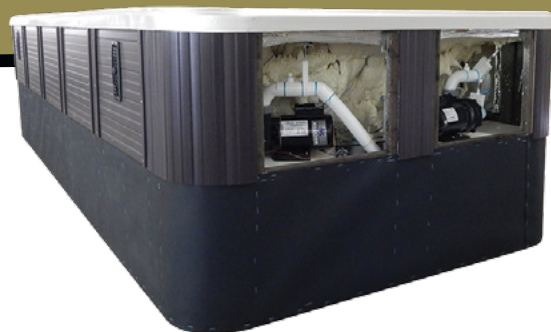

All of our swimspas and exercise pool models can be installed either partly or fully in-ground. Where a standard unit is being installed below ground the main consideration is access to the equipment. A service pit will need to be constructed for the full depth of the model. We can offer the Orinoco, Medley, Amazon, Relay and Marathon as specially designed in ground models to be part (50%) installed below ground. The benefit of the in-ground design is that you do not need to leave an access area in the pit as all of the equipment is located at high level in the cabinet. On average each in-ground model is 24" (600mm) longer than its standard counterpart. For the exact dimensions on a particular model please contact us.

Sundeck

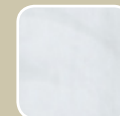

We have added an option of a new dimension to the Orinoco, Amazon and Relay. These can be ordered with a sundeck, transforming them in to the perfect summer garden oasis. The models listed have been extended to feature a padded sundeck, then to top off the experience each Sundeck model is fitted with a cooling mister system to keep you cool whilst enjoying the summer sun.

Amazon Deep

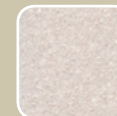

For those clients who are looking for a pool with extra depth we offer all of the Amazon fitness pools in either 1.3M or 1.58M. The extra depth versions are available in the Classic, Classic XP and Aquadynamic power ranges as well as the in-ground. If it's deep you're looking for then look no further!

Shell Colour

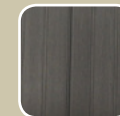

Silver Marble

Cameo

Olympic Dual Temperature only available in Cameo.

Cabinet Colours (Synthetic wood effect)

Grey

Walnut

Mocha

Handmade Cabinet

We take great pride not only with the internal design and layout of our swimspas but also its lasting external appearance. To achieve this we finish our swimspas with a beautiful wood effect tongue and groove synthetic cabinet with a 10 year guarantee. These are not large one piece side sections but carefully hand crafted cabinets with attractive radius corners. One of the Catalina swimspas' unique features is that they are fitted with service access doors that have a security lock and key.

The best insulation saves money

We have a responsibility to ensure our swimspas run and operate as efficiently as possible so great care is used in the selection of insulation materials to keep running costs to a minimum. Our thermo-pane system uses a mixture of spray applied foam to the shell and plumbing with **Radiant GUARD® Reflex-Air™** applied to the inside of the cabinet. This method gives maximum energy efficiency and durability

Filtration - Perfect Water Quality

All Catalina models are self-cleaning and have 100% filtration, meaning all of the water is cleaned and filtered during the adjustable timed filtration cycle. Not only is this ultra-efficient but it ensures that the water stays crystal clear. Large surface area and easy to clean filters provide optimum water polish. The water is filtering at a rate of up to 15M³/hr. meaning all of the water is filtered in less than 40 minutes.

Performance

To produce the ultimate hydrotherapy effects we use the best equipment. We take our innovative designs and

skills and combine them with **Waterways™** hydrotherapy jets and pumps. This combination ensures reliability and performance. At the heart of all engineering masterpieces there are components derived from tried and tested procedures, a Catalina is no exception. We only use state of the art operating systems manufactured by **Balboa™**, the world's leading manufacturer of spa control systems, meeting and exceeding the most demanding quality and safety standards, to ensure that the owner of a Catalina can look forward to many years of trouble-free use.

10 Year Warranty

Plain peace of mind! Catalina offers quite simply the best warranty in the industry. With 10 Years of cover on the shell, cabinet, plumbing and control equipment all underwritten by our in house engineers. Selling Catalina swimspas for over 17 years in the UK we have the knowledge and experience to offer this unbeatable warranty.

The Catalina Difference

Delivery, installation and commission

Do not be daunted by the idea of installation. For many years we have worked with JA Mackenzie, one of the UK's premier specialist lifting companies who are skilled and trained to the highest standards. With our close association we can undertake deliveries using unique equipment almost anywhere. Our dedicated team of trained surveyors, installers and engineers will help ensure that your new swimspa or exercise pool installation is completed both professionally and smoothly leaving you to only enjoy the results!

Environmental statement: As one of the UK's oldest and largest suppliers of hot tubs, swimspas and exercise pools, Catalina Spas Ltd has a responsibility to not only provide our customers with products that are manufactured to the highest technical standards, they must also have a minimal impact on the environment.

The Directors and staff at Catalina Spas Ltd recognise that environmental protection is one of the most important issues facing the world today. Through continuous commitment we remain determined to identify potential for increased efficiency, implement waste minimization, monitor and reduce energy consumption and our consequential emissions of harmful greenhouse gases.

As part of our commitment we operate our own recycling plant at our Salisbury distribution centre and all Catalina spas and swimspas meet the standards set by the California Energy Commission standards who promote efficiency and conservation.

The paper used to produce this book was sourced from managed European sustainable forests.
